DANNY BOY

AGE: 53

YEARS PATCHED: 6

HOMETOWN: BATTLE CREEK, MI.

TITLE: LAFFING DEVILS FOUNDING MEMBER

OCCUPATION: RETIRED MARINE

BIKE: HARLEY DAVIDSON STREET GUIDE FLHX

EYEWEAR: GLOBAL VISION

TWITTER: @DBDANNYBOY

DANNY BOY TAKES THE DARE!

Danny Boy, the founding member of the motorcycle club The Laffing Devils, is one of the lead characters in the hit show *The Devils Ride*. The club has opened its doors to camera crews to record the challenges and growing pains that a club goes through. The show is now into its second season with the Discovery Channel and has over two million viewers.

Danny Boy and Global Vision have established a partnership that will include Danny Boy making multiple celebrity appearances throughout the year. Celebrity appearances will be scheduled at trade shows and multiple charity events to happen in Grand Rapids, Michigan, where Global Vision's headquarters is located. (Events and dates TBA).

"I was a fan of Global Vision before entering into a sponsorship agreement with them," says Danny Boy. "Global Vision is a company I'm proud to be associated with because of their quality products, commitment and vision of giving back to the community."

Handwritten signature of Danny Boy, consisting of a stylized, cursive script above the initials 'DB'.

LENS INFORMATION

Bifocal	A portion of the lens magnifies for reading small print.	Hydrophobic	Hydrophobic coating repels moisture, oils and dust buildup. These lenses are easy to clean, and stay cleaner longer.
Color	Assorted color lenses may include yellow, purple, green, blue, orange and other colors.	Mirror	Smoke lens with a silver mirror coating.
Clear	Untinted for low-light or nighttime eye protection.	Photochromatic	Our 24-Hour Lens™ can be worn outdoors and indoors because it self-adjusts to the ultraviolet light (See info. on pg. 48).
Clear-Mirror	A clear lens with a flash mirror coating that provides a one-way mirror for "private eyes." They're cool! Popular for bright and low-light conditions.	Polarized	Polarization eliminates annoying glare and enhances contrast for maximum visual clarity (see pg. 35).
Decentered	A lens that has an offset optical center to maintain optical clarity. (This is used on better quality lenses that have a highly curved surface.)	Purple Mirror	Looks cool, enhances colors.
Driving Mirror	State-of-the-art lens for daytime use, copper color tint and flash mirror coating that's soothing to the eyes.	Super Dark	Provides additional sun blockage for bright sunny days.
Flash Mirror	A smoke lens with a partial mirror coating.	Smoke	Distinctive gray tint decreases sunlight without distorting colors.
G-Tech™	Multi-layered titanium provides brilliant rainbow color.	Yellow Tint	Increases depth perception, ideal for overcast days.
Gradient	A lens that's darkest at the top and gradually becomes lighter.	Yellow Tint Mirror	The advantages of yellow tint with a partial mirror coating.

THE SAFE SIDE OF DANGER

SAFETY GLASSES. Safety never looked so good. These lenses and frames are designed to provide you with a great fit (to keep the wind out), comfort (for a long ride), style (so you are always looking great) and the protection from flying objects.

High Definition- TREAT YOUR EYES TO A "NEW WORLD"

Experience superior clarity and sharpness that is seen with Global Vision's HD lenses. Our new HD technology is a perfect fit for daily use and for active lifestyles.

- HD lenses enhance colors and increase depth perception
- Relaxes the eyes and eliminates eye fatigue
- 100% UV protection

SUPER HYDROPHOBIC COATING

Repels moisture, oils and dust build-up from the elements and from skin contact. Lenses are easy to clean, and stay cleaner longer. The coating provides exceptional clarity, while the shatterproof polycarbonate lenses provide unsurpassed impact protection. A great combination from Global Vision!

MARKER TEST

Additional Hydrophobic Glasses on Page 18

A black and white photograph of a man with a full beard and glasses, wearing a dark vest with a thick, light-colored shearling lining. He is looking off to the side with a serious expression. The background is plain white.

G-TECH™ LENSES

Our G-Tech™ Lenses give you the benefits from discoveries made by aerospace engineers at NASA. These high-tech lenses have from 7 to 13 layers of titanium dioxide and silica applied onto shatterproof polycarbonate. Cleaning them is easy and they are scratch resistant. You will receive total ultraviolet protection while enjoying enhanced contrast with minimal glare.

Join Global Vision in the fight against breast cancer with your purchase of any of our Fight Back glasses. Global Vision donates 10% of the wholesale price to charities that do breast cancer research and for support services to those who have breast cancer. Thanks to you, more than \$5,000 has been donated to the American Cancer Society and the Nation Breast Cancer Foundation at the end of 2012. We now have three products to make this number grow even faster.

SMART STRONG SEXY

Global Vision is your smart choice in eyewear. Our quality is often the same or better than competing brands that sells for three times as much and sometimes are made at the same factory. All our lenses are made with shatterproof polycarbonate material making them so strong that a hammer will not break them. No one in the industry offers this big of a variety, allowing you to find the fit YOU need, while offering the styles and colors that best express your individuality: Smart, Strong, and Sexy.
